**Overview** Assalamualaikum...First of all, I'm thanking you for viewing my profile. I hope all kinds of information you want to have, will get from this profile. I have been in this profession for last 3.5 years. My main motive of teaching is to be a self-made person along with a BCS cadre. And that's why it has become one of the most favorite hobbies of mine. To tell you frankly, I am still learning so many things from tuition. From my experience, I can help my students to have fabulous results. And about my teaching style, you will get an overall idea on the part of Tuition Related Information. Again Thanks a lot for viewing my profile...

<b>Experience Details</b>	I have almost 3.5 years of experience in teaching and now I'm instructing a student of class 10 from English Version and another of standard 9. Besides, I taught a student of HSC-2018 along with couple of students from class 8 and class 1. I was also an instructor of Accounting as well as General Mathematics at a coaching center in Old Dhaka for a year.

**Tutoring  
Method**

Firstly, I always tell my students to call me 'Bhaiya'. Because I believe there is a huge difference in Sir and Bhaiya. Secondly, I am interested in funny methods of teaching. I try my best to present a concept as humorously as I can. For example: In trigonometry there is a formula.... 1. Sin= Perpendicular/Hypotenuse 2. Cos= Base/Hypotenuse 3. Tan= Perpendicular/Base According to me...you should remember these formula like this.... ? . ?????  
??? ???...??-sin = ?-???? (Perpendicular) / ?- ?????? (Hypotenuse) ? . ????? ??? ???... ? . ??????  
????? ?????...
